2nd Place CCD 86/100 points

This is 1/3 passes towards CCD Title

*"The bone, chew toy and treats aren't a problem.
Getting your testicles back will pose a challenge."*

Club News!

The year has been very busy as usual, but this year many projects have been started and most completed to enhance our club and grounds. At present the grounds are in the process of being leveled so rings can be utilized in up-coming shows & Trials. This will give us more room and easier access for exhibitors.

Again this year the Jazz festival has asked our club to volunteer with their assistance to support the Jazz festival by waiting tables, cleaning tables etc.

This happened on the 3rd & 4th November, with the club to receive a donation from the Jazz festival committee. A small contingent of members were able to help, throughout the weekend. Thank-you to those who were available to help out.

After discussion at the October club meeting, guest Justin Scholz (director) of the annual Gary Nash Marathon & fun run, gave an overview of the up-coming event, it was voted that the club would allow the Marathon & fun run to use our club facilities as a base on the 24th February 2013 for their annual marathon. Club members will be selling food & drink to those in attendance to allow the club to raise some funds. It was thought light foods such as de-ven-shire tea, slices etc would be appropriate. Sandwiches & fruit will be provided to competitors by the marathon committee.

Members will be sort closer to the time to volunteer their time with cooking and/or selling on the day. Next meeting will be in January to finalize arrangements with Justin.

SNAKES & HEAT

WATCH OUT!!!

Now the hot weather has arrived it is inevitable that those dreaded moving sticks are about and a danger to our pets. Hopefully most areas you may walk are pretty safe, but be alert at all times, by thinking about when and where you walk with your dog in the summer months.

It can be a pleasant walk if you keep in mind a few simple strategies. To only walk your dog in the cool of the mornings before the snakes are out and about. Be careful when walking around near the river. Have the dogs on lead in these places, that way you have control if a snake should appear. Clear rubbish from around your house, snakes love to hide in places where they can get warm and be hidden, until a curious dog comes sniffing around and that's when trouble begins.

If your dog does get bitten by a snake, try to keep calm and the dog as well, and get to a vet as soon as possible. The vet will want to know what kind of snake it was, so if you saw the buggger, describe it to your vet so as the right antivenin can be administered. It is a serious event and your dog may or may not survive, so it pays to be vigilant and take the time to walk in safer places.

The other danger in the summer is "THE HEAT". I cannot believe how many people still take their dogs to the shops and leave them in the car after all the publicity surrounding the deaths in cars that occur from over-heating even, for a short time on a mildly warm day. Leave your dog at home with shade and plenty of water.

Some tips for keeping cool are you could:

- ⇒ put ice cubes in the dogs water, this helps to keep your dog cool & its fun for the dog.
- ⇒ Freeze pieces of meat in water ice block and the dog will have fun licking the ice to get to the meat. Freezing balls of minced meat is another way of amusing your dog while it stays cool.
- ⇒ Cool coats are a good idea for people trialing or showing in the heat
- ⇒ If you have to take your dog somewhere invest in a grill for the back of the car or a crate so you don't have to leave your dog in the car without maximum airflow.
- ⇒ If it's extremely hot outside allow your dog to come in for the benefit of the air-conditioner. If your hot so will your dog be hot.
- ⇒ Watch for your dog overheating, Please don't walk your dog on the hot pavement in the middle of the heat of the day. How would you like to walk in bare feet on burning pavement. If you see signs your dog is panting very vigorously and looks like their going to collapse, they probably are. Wet a towel and hagg the cool wet towel over their back, or get the hose and wet your dog all over, starting at the feet until they are cooler, then let them rest in a shady cool spot. **Remember if you feel the heat, So do they.....Be Safe**

WANGARATTA KENNEL & OBEDIENCE DOG CLUB INC
PO BOX 171, WANGARATTA, 3676
